

DAY 1/DAY 2 WORKSHOP

PRESENTED BY

Dr. Brian Hester

Dr. Dane Donohue

Dr. Justin Nye

What to Expect in the Event:

CONNECT IN THE CONSULT

How to connect with patients known chief complaint and their secondary health issues

How to build value by finding out how their challenges are affecting their quality of life

How to educate patients on the law of cause and effect so they are focused on functional goals rather than JUST symptoms

Learn the 3 greenlight questions to know if a patient wants lifestyle services as part of their initial care plan

DISCOVER IN THE EXAM

How to blow patients away in the exam ("my doctor never did this thorough of an exam")

The 8WW Functional Movement Screen

Understanding the Biomarkers of a Wellness Score: What you MUST include in your exam

Understanding Body Composition testing and Labs

RESPOND IN THE ROF

How to put together REAL care plans that work for YOU and the patient

How to close patients into the care they truly NEED!

Handling finances and objections

How to make your post-initial care a habit, not a visit for pain relief
